Bath Scenario

Doc M Pack
Bath Scenario

We recommend items for this scenario be selected separately.

Stainless Steel is recommended for use in wet or damp areas. Mild Steel for use in dry areas.

+ Bath Rail

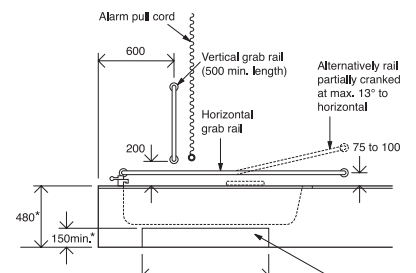

1x 35mm x 1750mm Bath Rail is recommended, straight or cranked. Bath Rail length is determined by the size of the bath and can be made to customer specifications.

Turn to page 55

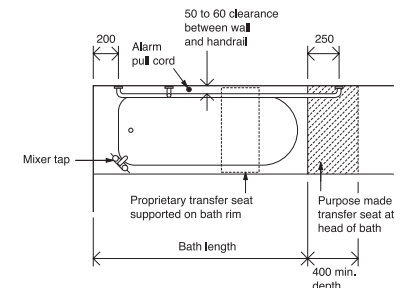

+ Grab Rail

1x 35mm x 600mm Grab Rail is recommended (500mm minimum).

Turn to page 50

* To meet both these criteria, a shallower than normal bath may be needed
